

BHABYA

Full-Stack Developer | Mobile Developer | Solutions Engineer

📞 +91 8862872142 ✉ bhabyasingh2008@gmail.com 🌐 github.com/bhabya-20

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building and maintaining production-grade web and mobile applications for the financial services domain. Experienced across full-stack development, backend engineering, mobile development, databases, API integration, business workflow automation, and solutions engineering. Strong experience translating business requirements into scalable technical implementations using modern web and mobile technologies.

PROFESSIONAL EXPERIENCE

AiBi Tech

Associate Software Engineer

July 2025 – Present

Bengaluru, India

- **Full-Stack Development:** Designed and developed production-grade web applications using **React.js, Node.js, Express.js, Prisma, REST APIs, SQL/NoSQL and Docker**, working across frontend, backend, authentication, database schemas and business workflows.
- **Mobile Development:** Built and shipped cross-platform mobile features using **Flutter and Dart**, integrating production REST APIs and supporting **50+ active users**.
- **Backend & Databases:** Worked with **PostgreSQL, MySQL, SQLite and MongoDB**, designing application data flows, database structures and backend services.
- **Solutions Engineering:** Worked directly with stakeholders to understand business requirements, convert them into technical specifications, coordinate implementation and contribute to product and workflow decisions.
- **Automation:** Built and deployed **3 Chrome Extensions** to automate repetitive business workflows, reducing manual processing time to approximately **5–10 minutes per task**.

Bluestock Fintech

Software Developer Intern

May 2025 – June 2025

Remote

- Developed a production-ready **IPO platform** using the **MERN stack**, contributing to frontend, backend and database workflows.
- Built frontend functionality using **React.js** and backend services using **Node.js**, integrating SQL-based data management.
- Worked with financial-market data including IPO details, company information, issue size, price bands, opening/closing dates and regulatory documents.
- Led the intern development team, coordinated implementation tasks and collaborated with product stakeholders to deliver features for a live, client-facing product.
- Contributed across the development lifecycle including **feature development, API integration, debugging, testing and deployment**.

TECHNICAL SKILLS

FullStack Development	React.js, Node.js, Express.js, JavaScript, HTML5, CSS3, REST APIs, Prisma ORM
Android App Development	Flutter, Dart, BLoC, SQLite, Firebase, REST API Integration
Backend & Databases	Node.js, Express.js, PostgreSQL, MySQL, SQLite, MongoDB
Programming	Python, Java, C, C++, JavaScript, SQL, Dart
AI / Machine Learning	TensorFlow, PyTorch, Keras, CNN, ResNet, BERT, Tesseract OCR
Tools & DevOps	Docker, Git, GitHub, Postman, VS Code
Data & Analytics	Excel, Power BI, Data Cleaning, Data Analysis, Data Visualization

PROJECTS

DocFlow – Document Workspace

React / Node.js / Express / SQLite / TipTap / Vite / Netlify / Render

- Developed a full-stack collaborative document workspace for creating, editing, organizing, importing and sharing documents.
- Built the frontend using **React, Vite and TipTap**, implementing rich-text editing, document organization and document-sharing workflows.
- Developed the backend using **Node.js and Express**, with **SQLite/better-sqlite3** for data persistence and APIs for authentication, document management and file uploads.
- Implemented document import functionality using **Mammoth and Marked** and deployed the frontend on **Netlify** and backend on **Render**.

Hateful Meme Detection System

Python / TensorFlow / CNN / BERT / OCR

- Developed a multimodal machine-learning pipeline to classify hateful memes by combining visual and textual information.
- Used **Tesseract OCR** and **BERT** to extract and represent textual information from meme images.
- Extracted visual features using **CNN/ResNet-based models** and combined image and text features for classification.
- Processed approximately **10,000 meme images**, including manually labelled and unlabeled samples.

EDUCATION

Sikkim Manipal Institute of Technology

B.Tech in Computer Science Engineering (AI & ML)

2022 – 2026

CGPA: 9.01
